

I am a small business owner and play K-Love in my business at all times. I know that the atmosphere of my store has changed dramatically and have had nothing but positive comments on my radio station. Christian broadcasting is already limited. I am very disturbed by the relentless effort to limit all areas of decent entertainment. Garbage can be found everywhere in our society today, you don't even have to look for it. Finding a radio station that contributes so many positive attributes to society is a vital part of keeping our community on the right track. I will be faithfully praying that this ruling is not passed and that K-Love will be able to continue to change lives. It changed mine.
